GEORGE WASHINGTON UNIVERSITY LIBRARIES AND ACADEMIC INNOVATION AND GEORGE WASHINGTON UNIVERSITY

The George Washington University is the largest research university in the nation's capital, located blocks from the White House, the State Department, the Federal Reserve, the World Bank and the International Monetary Fund. GW currently enrolls approximately 25,000 students, including 10,000 undergraduates, in ten colleges and schools at three campuses in the District of Columbia and Virginia. Over the past twenty years, the university has made remarkable strides, including consolidation of the main campus at Foggy Bottom; the establishment of a wide variety of new degree programs, both on-campus and off; the construction of a Northern Virginia campus

devoted to graduate study and research in science and technology; and the acquisition of the beautiful Mount Vernon Campus in Georgetown with a focus on specialized undergraduate programs. Thanks to these developments, GW has attracted an increasingly high caliber of faculty and students. With faculty at the top of their fields, and partnerships with organizations locally and around the globe, GW remains a first-choice among students of political science, public policy, international relations, public health, and other disciplines. Under its current leadership, the university has magnified its support for science and engineering, including the construction of a new research facility and the recruitment of nationally recognized research faculty.

As the largest research university in the District of Columbia and a rising institution of higher education in this country, GWU has two obligations: to collect and create knowledge and make it available to the world, and to produce a steady stream of critical thinkers who know how to utilize knowledge to become leaders in whatever field they enter. These two obligations merge in the GW Libraries and Academic Innovation.

GW Libraries & Academic Innovation (GWLAI) enriches the academic experience of scholars and students and spurs innovation at GW. Our resources and services advance research and teaching through access to the latest scholarship as well as rich archival sources; tailored support for researchers at all levels; guidance for faculty who want to explore new methods and technologies in the classroom; and robust support for online education. GWLAI fosters deeper collaboration between previously separate areas to forward the strategic goal of generating, making accessible, and preserving new knowledge.

York University

Rank: Assistant or Associate Professor and Canada Research Chair (Tier 2) in Politics of Democracy and Artificial Intelligence

Subfield(s): American Government and Politics, Public Policy, Other

The Department of Politics, Faculty of Liberal Arts & Professional Studies at York University invites applications from outstanding early career researchers who specialize in Politics of Democracy and Artificial Intelligence for appointment as professorial tenure-track or tenured professor at the Assistant or Associate Professor level. Note that this appointment is contingent upon a successful nomination to the Canada Research Chairs program (<http://www.chairs-chaires.gc.ca/>) at the Tier 2 level. The start date for this position is July 1, 2019 or as soon as possible thereafter.

The successful candidate must have a PhD in Political Science or a related discipline. The ideal candidate will be an emerging world-class researcher with demonstrated potential for international recognition in their field, and for taking a pioneering approach to the study of democracy and technology.

The development of Artificial Intelligence (AI) poses a host of challenges to social and political life, many of which will have an impact on the struggle towards democracy. The core focus of the proposed Chair is the relationship between AI and the democratic governance of states and societies. This relationship bears on, but is not limited to: 1) the political control of residents (populations) bearing on migration, privacy, political expression, and, given emerging trends toward transhumanism, who or what counts, in what ways, as a citizen or even human; 2) political and policy decisions about the organization of economies, the nature of work, consumption, and the environment; and 3) the very constitution of politics as it relates to the nature of

states and the democratic body politic. The CRC in the Politics of Democracy and Artificial Intelligence will lead a research program into the democratic possibilities of AI, and the political demands for achieving greater democracy through the social disruptions and resources AI will produce.

The successful applicant will be eligible for prompt appointment to the Faculty of Graduate Studies. Preference will be given to those with experience supervising graduate students and postdoctoral fellows and/or the potential to attract, develop, and retain excellent students and future researchers, while contributing to curricular development in their area of specialization. Pedagogical innovation in high priority areas such as experiential education and technology enhanced learning is preferred.

The Canada Research Chairs (CRC) program seeks to attract outstanding researchers for careers at Canadian universities. Tier 2 Chairs are intended for exceptional emerging scholars (i.e., who, at the time of nomination, are within 10 years of attaining their highest degree, with consideration for career breaks) who have the acknowledged potential to lead their field of research. Appointment to a Tier 2 Chair is for five years, is renewable once, and comes with enhanced research support from the program. Applicants who are more than 10 years from their highest degree (and where career breaks exist, including maternity leave, extended sick leave, clinical training, etc.) may have their eligibility for a Tier 2 Canada Research Chair assessed through the program's Tier 2 justification process. Please see the CRC website (<http://www.chairs-chaires.gc.ca/>) for further eligibility details.

For this nomination, we are particularly interested in candidates with diverse backgrounds and especially encourage candidates in equity, diversity and inclusion categories, including members of the four designated groups (women, members of visible minorities (racialized groups), Indigenous peoples and persons with disabilities) to apply. York acknowledges the potential impact that career interruptions (e.g. maternity leave, leave due to illness, etc.) can have on a candidate's record of research achievement. Applicants are encouraged to explain in their application the impact that career interruptions may have had on their record of research achievement; this will be taken into careful consideration during the assessment process.

As a research Chair, a CRC is expected to develop research linkages within and beyond York. In the case of this Chair, productive research trajectories may include collaborations with scholars across the Faculty of Liberal Arts & Professional Studies, as well as a number of York's Research Centres and Institutes (www.yorku.ca/research/about/centres.html).

The deadline for applications is March 31, 2019. Salary will be commensurate with qualifications and experience. All York University positions are subject to budgetary approval.

Applicants should submit a signed letter of application outlining their professional experience and research interests, an up-to-date curriculum vitae, a research and research leadership plan for the prospective Chair, a sample of their scholarly writing (maximum 50 pp.), and a teaching dossier, and arrange for three signed confidential letters of recommendation to be sent to: Professor David Mutimer, Chair, Department of Politics, Email: polsjobs@yorku.ca (Subject line: CRC in Democracy and Artificial Intelligence).

York University has a policy on Accommodation in Employment for Persons with Disabilities and is committed to working towards a

barrier-free workplace and to expanding the accessibility of the workplace to persons with disabilities. If you require accommodation at any time during the hiring process, please contact Professor David Mutimer, Chair, Department of Politics at polschr@yorku.ca.

GEORGE WASHINGTON UNIVERSITY LIBRARIES AND ACADEMIC INNOVATION AND GEORGE WASHINGTON UNIVERSITY

The George Washington University is the largest research university in the nation's capital, located blocks from the White House, the State Department, the Federal Reserve, the World Bank and the International Monetary Fund. GW currently enrolls approximately 25,000 students, including 10,000 undergraduates, in ten colleges and schools at three campuses in the District of Columbia and Virginia. Over the past twenty years, the university has made remarkable strides, including consolidation of the main campus at Foggy Bottom; the establishment of a wide variety of new degree programs, both on-campus and off; the construction of a Northern Virginia campus devoted to graduate study and research in science and technology; and the acquisition of the beautiful Mount Vernon Campus in Georgetown with a focus on specialized undergraduate programs. Thanks to these developments, GW has attracted an increasingly high caliber of faculty and students. With faculty at the top of their fields, and partnerships with organizations locally and around the globe, GW remains a first-choice among students of political science, public policy, international relations, public health, and other disciplines. Under its current leadership, the university has magnified its support for science and engineering, including the construction of a new research facility and the recruitment of nationally recognized research faculty.

As the largest research university in the District of Columbia and a rising institution of higher education in this country, GWU has two obligations: to collect and create knowledge and make it available to the world, and to produce a steady stream of critical thinkers who know how to utilize knowledge to become leaders in whatever field they enter. These two obligations merge in the GW Libraries and Academic Innovation.

GW Libraries & Academic Innovation (GWLAI) enriches the academic experience of scholars and students and spurs innovation at GW. Our resources and services advance research and teaching through access to the latest scholarship as well as rich archival sources; tailored support for researchers at all levels; guidance for faculty who want to explore new methods and technologies in the classroom; and robust support for online education. GWLAI fosters deeper collaboration between previously separate areas to forward the strategic goal of generating, making accessible, and preserving new knowledge.

6. To develop excellent working relationships with key external stakeholders including the Houses of Parliament, the Academy of Social Sciences, media and broadcast executives, and other international political associations, ensuring that the PSA is a proactive and innovative source of expertise in politics.

In addition, this position will serve as a bridge between the two organizations and will have the opportunity to develop an Oxfam-Sié Center collaborative project.

We will accept applications from candidates who specialize in peace, security, and humanitarian action. We are particularly interested in applicants who study local humanitarian leadership, or localization (i.e., leadership in humanitarian emergencies by local actors—local and national NGOs and government entities, which will require a transformation of the current global humanitarian system).

The Fellowship will begin September 1, 2019. The fellowship will extend for a one-year term, with the individual's time spent at both Oxfam America (in Boston and/or Washington, DC) and the Sié Center at the University of Denver.

The Sié Center is a center of excellence within the Josef Korbel School that leads research, education and policy programs focused on global peace and security. Eight faculty, visiting and post-doctoral scholars, and over 30 Korbel MA and PhD students contribute to the Center's activities. While at the Sié Center, post-doctoral fellows have opportunities to work with Center faculty and graduate students, engage with relevant policy practitioners, and receive clerical and research/travel support sufficient to allow the completion of a major research product. Fellows will be expected to attend and contribute to a seminar series and engage with other program initiatives including conferences, commentary, and publications.

Oxfam America is part of an international confederation of 20 organizations networked together in more than 90 countries, as part of a global movement for change, to build a future free from the injustice of poverty.

Essential Functions

Conduct independent and collaborative research, with a focus on policy-relevant empirical research in the humanitarian space generally, and on local humanitarian leadership in particular

With organizational partners, develop a joint Oxfam- Sié Center collaborative project (workshop or other set of activities that will increase cooperation between the organizations and promote joint interests)

Working with Sié faculty and Oxfam staff on additional research projects as consistent with his/her interests and expertise

Participate in events and workshops hosted by Oxfam and the Sié Center

Present research findings to interdisciplinary academic audiences as well as Oxfam staff focused on research, policy/advocacy, and programs.

The fellowship carries an annual stipend of \$50,000, an additional stipend to cover costs associated with travel between the two host institutions, and access to additional funding for research support, professional development, and work-related travel, and a comprehensive benefits package. York University

Rank: Assistant or Associate Professor and Canada Research Chair (Tier 2) in Politics of Democracy and Artificial Intelligence

Subfield(s): American Government and Politics, Public Policy, Other

The Department of Politics, Faculty of Liberal Arts & Professional Studies at York University invites applications from outstanding early career researchers who specialize in Politics of Democracy and Artificial Intelligence for appointment as professorial tenure-track or tenured professor at the Assistant or Associate Professor level. Note that this appointment is contingent upon a successful nomination to the Canada Research Chairs program (<http://www.chairs-chaires.gc.ca/>) at the Tier 2 level. The start date for this position is July 1, 2019 or as soon as possible thereafter.

The successful candidate must have a PhD in Political Science or a related discipline. The ideal candidate will be an emerging world-class researcher with demonstrated potential for international recognition in their field, and for taking a pioneering approach to the study of democracy and technology.

The development of Artificial Intelligence (AI) poses a host of challenges to social and political life, many of which will have an impact on the struggle towards democracy. The core focus of the proposed Chair is the relationship between AI and the democratic governance of states and societies. This relationship bears on, but is not limited to: 1) the political control of residents (populations) bearing on migration,

privacy, political expression, and, given emerging trends toward trans-humanism, who or what counts, in what ways, as a citizen or even human; 2) political and policy decisions about the organization of economies, the nature of work, consumption, and the environment; and 3) the very constitution of politics as it relates to the nature of states and the democratic body politic. The CRC in the Politics of Democracy and Artificial Intelligence will lead a research program into the democratic possibilities of AI, and the political demands for achieving greater democracy through the social disruptions and resources AI will produce.

The successful applicant will be eligible for prompt appointment to the Faculty of Graduate Studies. Preference will be given to those with experience supervising graduate students and postdoctoral fellows and/or the potential to attract, develop, and retain excellent students and future researchers, while contributing to curricular development in their area of specialization. Pedagogical innovation in high priority areas such as experiential education and technology enhanced learning is preferred.

The Canada Research Chairs (CRC) program seeks to attract outstanding researchers for careers at Canadian universities. Tier 2 Chairs are intended for exceptional emerging scholars (i.e., who, at the time of nomination, are within 10 years of attaining their highest degree, with consideration for career breaks) who have the acknowledged potential to lead their field of research. Appointment to a Tier 2 Chair is for five years, is renewable once, and comes with enhanced research support from the program. Applicants who are more than 10 years from their highest degree (and where career breaks exist, including maternity leave, extended sick leave, clinical training, etc.) may have their eligibility for a Tier 2 Canada Research Chair assessed through the program's Tier 2 justification process. Please see the CRC website (<http://www.chairs-chaires.gc.ca/>) for further eligibility details.

For this nomination, we are particularly interested in candidates with diverse backgrounds and especially encourage candidates in equity, diversity and inclusion categories, including members of the four designated groups (women, members of visible minorities (racialized groups), Indigenous peoples and persons with disabilities) to apply. York acknowledges the potential impact that career interruptions (e.g. maternity leave, leave due to illness, etc.) can have on a candidate's record of research achievement. Applicants are encouraged to explain in their application the impact that career interruptions may have had on their record of research achievement; this will be taken into careful consideration during the assessment process.

As a research Chair, a CRC is expected to develop research linkages within and beyond York. In the case of this Chair, productive research trajectories may include collaborations with scholars across the Faculty of Liberal Arts & Professional Studies, as well as a number of York's Research Centres and Institutes (www.yorku.ca/research/about/centres.html).

The deadline for applications is March 31, 2019. Salary will be commensurate with qualifications and experience. All York University positions are subject to budgetary approval.

Applicants should submit a signed letter of application outlining their professional experience and research interests, an up-to-date curriculum vitae, a research and research leadership plan for the prospective Chair, a sample of their scholarly writing (maximum 50 pp.), and a teaching dossier, and arrange for three signed confidential letters

of recommendation to be sent to: Professor David Mutimer, Chair, Department of Politics, Email: polsjobs@yorku.ca (Subject line: CRC in Democracy and Artificial Intelligence).

Thanks to these developments, GW has attracted an increasingly high caliber of faculty and students. With faculty at the top of their fields, and partnerships with organizations locally and around the globe, GW remains a first-choice among students of political science, public policy, international relations, public health, and other disciplines. Under its current leadership, the university has magnified its support for science and engineering, including the construction of a new research facility and the recruitment of nationally recognized research faculty.

As the largest research university in the District of Columbia and a rising institution of higher education in this country, GWU has two obligations: to collect and create knowledge and make it available to the world, and to produce a steady stream of critical thinkers who know how to utilize knowledge to become leaders in whatever field they enter. These two obligations merge in the GW Libraries and Academic Innovation.

GW Libraries & Academic Innovation (GWLAI) enriches the academic experience of scholars and students and spurs innovation at GW. Our resources and services advance research and teaching through access to the latest scholarship as well as rich archival sources; tailored support for researchers at all levels; guidance for faculty who want to explore new methods and technologies in the classroom; and robust support for online education. GWLAI fosters deeper collaboration between previously separate areas to forward the strategic goal of generating, making accessible, and preserving new knowledge.

The New School

Rank: Assistant Professor of Politics

The Politics Department at The New School for Social Research and Eugene Lang College seeks to appoint a political theorist, for a tenure track position at the assistant professor level, subject to budgetary approval.

We seek candidates with a strong background in the history of political thought and with promise of excellence in research as well as teaching.

We seek candidates whose work is theoretically sophisticated, historically sensitive, and politically critical and who are committed to engaging with colleagues outside the theory subfield.

We aim to appoint someone with broad interests and a lively mind, who can contribute to cross-field discussions in a politics department committed to blurring subfield divisions; to interdisciplinary debate in a graduate division dedicated to critically-oriented social science, philosophy and history; and to collegial life in an innovative liberal arts college dedicated to seminar teaching.

While we expect a strong background in the history of political thought, we are especially interested in candidates whose primary focus is on theoretical approaches and questions linked to contemporary political problems—for example, race, indigeneity, colonialism, imperialism/capitalism, domination, intersectionality, borders, globalization, transnationalism, international law; and environmental issues.

The review of applications will begin on September 15, 2018 and will continue until the position is filled. The start date for the position is July 1, 2019. Applicants apply on-line using the faculty application on The New School human resources website <http://careers.newschool.edu/postings/16212/>. Using this online system, applicants should submit 1) a letter of intent, 2) a CV, 3) a list of references, and 4) a piece of recent research. Applicants should have the PhD completed by the time of their contract start date.

The Department of Politics, Faculty of Liberal Arts & Professional Studies at York University invites applications from outstanding early career researchers who specialize in Politics of Democracy and Artificial Intelligence for appointment as professorial tenure-track or tenured professor at the Assistant or Associate Professor level. The successful candidate must have a PhD in Political Science or a related discipline. The ideal candidate will be an emerging world-class researcher with demonstrated potential for international recognition in their field, and for taking a pioneering approach to the study of democracy and technology.

The development of Artificial Intelligence (AI) poses a host of challenges to social and political life, many of which will have an impact on the struggle towards democracy. The core focus of the proposed Chair is the relationship between AI and the democratic governance of states and societies. This relationship bears on, but is not limited to: 1) the political control of residents (populations) bearing on migration, privacy, political expression, and, given emerging trends toward trans-humanism, who or what counts, in what ways, as a citizen or even human; 2) political and policy decisions about the organization of economies, the nature of work, consumption, and the environment; and 3) the very constitution of polities as it relates to the nature of states and the democratic body politic. The CRC in the Politics of Democracy and Artificial Intelligence will lead a research program into the democratic possibilities of AI, and the political demands for achieving greater democracy through the social disruptions and resources AI will produce.

The successful applicant will be eligible for prompt appointment to the Faculty of Graduate Studies. Preference will be given to those with experience supervising graduate students and postdoctoral fellows and/or the potential to attract, develop, and retain excellent students and future researchers, while contributing to curricular development in their area of specialization. For this nomination, we are particularly interested in candidates with diverse backgrounds and especially encourage candidates in equity, diversity and inclusion categories, including members of the four designated groups (women, members of visible minorities (racialized groups), Indigenous peoples and persons with disabilities) to apply. York acknowledges the potential impact that career interruptions (e.g. maternity leave, leave due to illness, etc.) can have on a candidate's record of research achievement. Applicants are encouraged to explain in their application the impact that career interruptions may have had on their record of research achievement; this will be taken into careful consideration during the assessment process.

As a research Chair, a CRC is expected to develop research linkages within and beyond York. In the case of this Chair, productive research

trajectories may include collaborations with scholars across the Faculty of Liberal Arts & Professional Studies, as well as a number of York's Research Centres and Institutes (www.yorku.ca/research/about/centres.html).

The deadline for applications is March 31, 2019. Salary will be commensurate with qualifications and experience. All York University positions are subject to budgetary approval.
